ment							
or Pipeline							
ion (GRS) including pipe rack construction, preparation works at the n of the new GRS, fencing, new gas receiving facility and new pipeline e-commissioning, commissioning and start up							
iency of silt curtain system shall be conducted during the early stage of construction	on to confirm the remova	al efficiency of the silt curt	ins.				

		Dis als Daires	04-11	0) (
Schedule of the works associated with the works	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021	Q4 2021	Q1 2022	Q2 2022
Preparation Phase	Q0 2020	Q+ 2020	412021		40 2021	44 2021	Q. LULL	di Loll
Pre-survey								
Removal of obstructions								
Construction Phase			1					
Pre-trenching including Deployment of Silt Curtain and Pilot Test								
Cofferdam and Sheet Pile Construction								
Pipeline Laying								
Post-trenching including Deployment of Silt Curtain and Pilot Test								
Rock Armour Placement								
Intermediate and Final Hydrotesting for Pipeline								
Gas Receiving Station (GRS) including pipe rack construction, preparation works at the vent header for tie-in of the new GRS, fencing, new gas receiving facility and new pipeline connection, and pre-commissioning, commissioning and start up								
Remarks: Pilot tests on the efficiency of silt curtain system shall be conducted during the early stage of construction	n to confirm the remova	l efficiency of the silt curt	ains					
		a emolency of the sit curt	ans.
